About us

Costa Brava Girona Tourist Board is a public entity whose mission is to promote tourism in the territory. The Board structures promotions, marketing and sales support in a segmented manner through the Product Clubs. The Board developed and manages the Sports Tourism Marketing Club.

The clubs are voluntary groups of business owners and public entities interested in managing, promoting and marketing similar tourist products; therefore, they have common interests, needs and concerns.

The main philosophy of the Product Clubs created by the Costa Brava Girona Tourist Board is based on cooperation and collaboration between its public and private members under a common brand with the aim, on the one hand, of increasing the quality and competitiveness of the product and the tourist destination, and, on the other, improving sales.
